EDUCATION IS THE KEY TO SUCCESS

About PDM

PDM Public school started its journey in 2003 with the aim of providing quality education and all-round development to the society. The school's genuine concern ensures student's emotional growth along with intellectual excellence.

Education that generates higher technological advances, new futuristic global standards, higher patterns of discipline and character building, yet more importantly, a harmonic community that transcends divides of time and society.

Late Sh. Prabhu Dayal Ji

Principal's Message

"Success comes to those who work hard and stays with those who do not rest on the Laurels of the past". We believe in giving our students strong values along with a set of wings which may carry them far and wide. In other world students are equipped to face the challenges of the rapidly changing words. I have realised that with little hard work, some attention from parents, guidance and a loving pat on the back from teachers make the process of learning easier, acceptable and enjoyable. It is our constant endeavour to help and guide each and every student to achieve a level of excellence in their chosen field. Together we will move along, as we all sincerely believe to REACH TOGETHER.

Smt. Suman Hooda
Principal

Our Vision & Mission

To make our students ready to face the real-life situations in the ever-changing 21st century, the era of technology and development that demands a certain level of technical and societal proficiency from our young leaders. To be recognized as a Centre of innovative and practical education that contributes towards the development of our community. To impart a global education that becomes useful wherever our students foray in their lives. To create life-long learners who give their 100% whenever they take up a task. To emphasize more on learning by doing in place of the outdated bookish cramming. Last but not the least, to provide education with values that purges our nation out of social evils towards a prosperous and dynamic nation.

Our objective is to create rational- minded individuals who grow up towards realization of their own potential through harmonious functioning of mind, body and soul. We believe in creating true humans who are ready to face challenges with strength and prudence.

Our Approach

Our school believes in a well-rounded development of every child in both academic and extra-curricular context. As mentioned earlier, our school aims at holistic development of children in sync with nature and community. The education is imparted in an amicable way, keeping in mind the Indian culture and values. We are committed to provide quality education which is rooted in tradition and values with an international dimension to it. We view young children as harbingers of a new golden era in the human history.

**Education is the most powerful

Our Motto

We believe that every child is extremely talented in their own way. They have strengths and abilities which we need not only to discover but to make them realize their full strength with healthy and relevant nurturing. In today's 21st century the kids are smart, they no more need constant spoon feeding, rather just direction to create their own milestones in the journey called life and our motto resonates the same. We want to give every child what they dream of to become successful and holistic individuals.

Teaching Methodology

At PDM, we have confidence in making taking in a charming and looked for after understanding. Kids at PDM, invest quality energy with prepared teachers who comprehend the youngsters and empower them to wind up noticeably more imaginative, inventive, inquisitive and free.

but the fruit is sweet. – Aristotle**

Activity Oriented Learning

It will be the earnest effort of all our faculty members to motivate children to carry out intensive research in their respective fields and discover for themselves how pleasurable the results of their creative work are. An integrated curriculum has been designed to develop the thought process of students to generate their interest in various subjects, thus making learning meaningful and long lasting.

The class room lectures are accompanied by Multi-Media aids and online education using recorded CDs and VCDs of acclaimed lectures of great educationalists. This enhances retention power and essential to cope up with today's explosion of knowledge. State of art information technology provides instant access to the knowledge and broadens their mental horizon. Advance networking studies is a part of regular curriculum.

Our great culture is bequeathed to the children through special religious discourages by the specialists on appropriate occasions. A beautiful temple exists here to meet the spiritual needs of pupils. We not only inculcate overall personality communication and presentation skills but also social and moral values.

We strive to synthesize the complex and serious educational process with play way learning to enable each teacher and students to enjoy their work of teaching/learning. Unique individual capabilities will be developed through a vigorous academic program mixed with fun and frolic to make it pleasurable.

The children will be exposed to real life situation through excursions and workshops to provide firsthand knowledge. Emphasis would be on development of critical thinking and appreciation of the world around them.
